

COMMUNICATION

Dear Dobermann Friends,

Unfortunately we are forced to clarify our associates and other Dobermann friends that the event ADP Trophy 2011 will be held only and exactly and strictly as published and announced in our 2011 activity program published in our site at www.dobermann.pt

We equally clarify that the ADP Trophy is and will be the only single event with the name TROPHY organized by our association during 2011, besides all the other events announced with other designations as Special Dobermann, Specialized Dobermann, ZTP 2011, etc.

We are completely unaware to the responsibility of supposed wrongly publications in other means of information that only contribute to desinform new comers to the breed that can be led, to participate in events that do not deserve or withhold any kind of credibility concerning the Dobermann breed/race.

We also alert our members and friends about the eventual consequences of participating in un-official or un-recognised events, and therefore recommend a thorough lecture of all official regulations on the events you wish to participate in as well as a direct contact to the organization entity or commission, as also to the secretary office of our umbrella body - Clube Português de Canicultura that can provide you with accurate information and recommend you the necessary contacts of the respective breed official associations and or clubs.

We also clarify that in Portugal the regulation of the Dobermann Breed or Race is exclusive competence of the Associação Dobermann de Portugal and the Clube Português do Dobermann, respecting and considering all regulamentation of our umbrella body - Clube Português de Canicultura that directly depends from our Ministry of Agriculture.

We equally inform our associates and all dobermann friends in general that the Associação Dobermann de Portugal will immediately start action in order to discover the reasons that led to all the mentioned confusion of information, after which, if considered imperative, we will assume a public position in defense of the greater interests of the Dobermann Breed or Race as well as the prestige and good name of our institution.

Kindest Regards,

ADP Presidium and Board of Administration
